To Whom It May Concern:

I am writing to explore employment opportunities with your company. The enclosed resume will provide you with the necessary information concerning my education and work experience. I am currently seeking a position in the area of electrical engineering that will allow me to interact with a design team, enhance my future growth as well as your progressive company's growth.

Being a graduate student at the University of New Haven, Connecticut, has provided me with a strong educational background and hands-on experience through a graduate assistantship in digital design as shown in the enclosed resume. Currently, I am doing a research project geared towards the simulation of communication systems via Spread Spectrum techniques.

Should my qualifications be a match for one of your needs, I would appreciate hearing from you.

Thank you for your time and consideration.

Sincerely,

Wiwat THARATEERAPARB
